

# Where is all the ECE stuff?

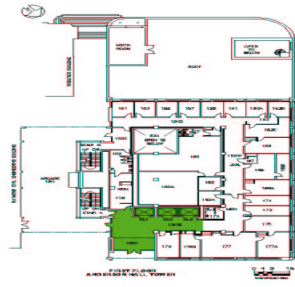

<http://www.engr.uky.edu/ece/>

Electrical & Computer Engineering is in all aspects of the generation, control, and use of electrical and electromagnetic energy: power generation, computers, imaging, lasers, nanotechnology...

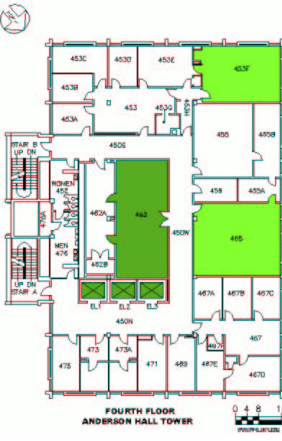

**Entry, Anderson Tower**  
**Virtual Exhibit Index & Tutorial Sign-Up**

**6th floor, Anderson Tower**  
**682: Electromagnetic Simulation**  
**672: Supercomputers R Us**  
**659: Laser writing on pennies**  
**651: Electronic Devices Research Lab**

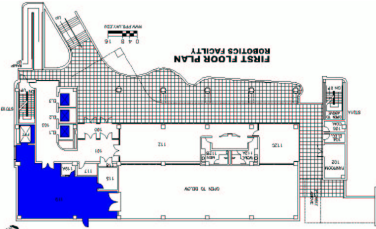

**5th floor, Anderson Tower**  
**591: Senior Design Projects**  
**581: Digital Design Lab**  
**577: (hands-on for Linux tutorial, see below)**  
**559: Autonomous Firefighting Robots**

**4th floor, Anderson Tower**  
**465: Building Circuit Boards (tutorial @1:30PM)**  
**453F: Introduction to Linux (tutorial @1:30PM)**  
**462: Palace of Power**

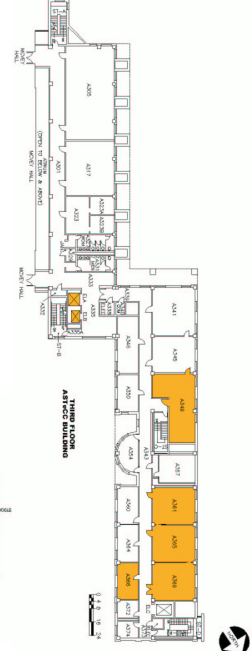

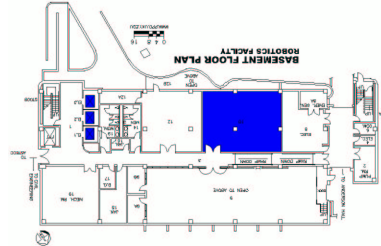

**3rd floor, ASTeCC**  
**A369, A365, & A349: nanotechnology and Semiconductors Lab**  
**A368: Desktop Printers, not your average toaster anymore**  
**A361: Center for Micro-Magnetic and Electronic Devices (CMMED)**

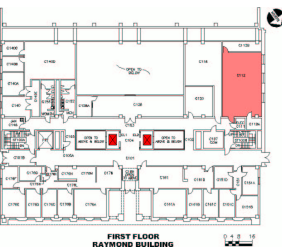

**1st floor, CRMS**  
**119: Welding**  
**Research Lab**

**Basement, CRMS**  
**010: Electronic**  
**Assembly Lab**

**1st floor, Raymond**  
**112: Intro to Digital Photography (tutorial @1:30PM)**

**EDay tutorials 1:30–2:30PM; all else 9AM–1PM**
